Senators Probing Peress Case

One shouldn't be sentimental about possessions. There are times, however, when the loss of some personal treasure is a source of much unhappiness, however much one tries to make out to oneself that material things are not important, and are usually replaceable in some form or another.

We value our possessions for a number of reasons: We are proud of the acquisition of a fine piece of furniture, because maybe no one else appreciated its value under its "beat up" exterior, or perhaps it was bequeathed to us by someone whose memory is very dear.

Sometimes we value a trinket because of the associations it has for us, certainly not because of the size of its diamonds or its weight in gold. It may be the locket given by a childhood sweetheart; the cigarette case of the World War I veteran which deflected the bullet that would have cost his life; the ring that we have treasured and worn for so many years, not because of its worth in dollars, but because we remember who gave it to us . . . and when.

Then one careless action, one forgetful moment, and we have lost an "old friend" . . . and all we can do is hope that whoever finds it, will understand . . . somehow what it means to us, and return it.

On Tuesday, I lost my watch. To most people that is in itself a minor annoyance. "One of those things" we say, and try to forget the affair, and put up with the inconvenience of not having a watch, until such time as we can afford to buy a new one. But this was my watch . . . and therein lies the tale!

It was my 21st birthday. The night before, our town had been bombed and shattered almost out of existence, and plans had been made by the family to visit the jeweler's shop that day, to make the final choice of a watch for my birthday. They went into town . . . a heartbreaking and sometimes dangerous walk of four miles through the smoking ruins of what had once been a lovely city.

The jeweler's shop was no longer standing, but the owner was trying to see what he could salvage from the safe which had withstood the fire and the high explosives. There were five watches left in the safe . . . and because it was my 21st birthday . . . and because families are what they are . . . one of those watches became mine that day.

On Saturday, George Summers, 891 Hemlock av., came into the office with my watch. He found it lying in the street. I thanked him as best I could, for in my happiness at seeing his battered face again, I could not really tell him how I felt . . . but I tried.

I had offered a reward to the finder of the watch . . . but people are wonderful . . . the reward was refused. If a reward can be measured in terms of happiness that is brought to others, then George Summers rates pretty highly with me.

Mau Estate Is \$39,000

James E. Mau, Hamilton township, left an estate totaling \$39,000, a petition for letters of administration of the estate revealed today in probate court.

The estate consisted of \$15,000 in personal property and \$24,000 in real estate.

Named heirs were Margaret Benson and Marian Meyer, both of Harmon, his daughters, and Bessie Merchant Mau, Peoria, his widow.

Mr. Mau died April 21. At the time of his death he was Hamilton township supervisor and was prominent in the Lee county Farm Bureau activities.

Mrs. Benson and Mrs. Meyer were named administrators of the estate.

Give Party for Nachusa Home Kids

CHILDREN OF THE NACHUSA LUTHERAN HOME were entertained Saturday by Lee County Vulture, Forty and Eight, for their fourth annual May party. Thirty-three children and four house mothers had a picnic lunch at the Legion home in Dixon. The youngsters each received \$1 for personal shopping, and the group went to a motion picture. The party was transported to and from Dixon in the Vulture's locomotive and box car.

Indochinese Reds Under Heavy Attack by French

Report Bombs Cut Key Highway in Ten Places

HANOI, Indochina (AP)—French fighters and bombers today heavily attacked key roads leading northeastward from the fallen fortress of Dien Bien Phu. The roads are jammed with thousands of Communist-led Vietminh troops and big Molotov truck convoys.

Dropping 1,000-pound high explosive bombs and heavily strafing, the warplanes centered their attacks upon the road from Tuan Giao, 27 miles northeast of Dien Bien Phu, and running eastward to Na San, which is 117 miles west of Hanoi.

It was at Na San in the winter of 1952 and 1953, that the French, as at Dien Bien Phu, had for months put up a valiant resistance against encircling and vastly superior Vietminh forces.

The French evacuated Na San on Aug. 11, 1953, and the Vietminh quickly moved in to use it as a base.

The French high command reported today that warplanes had cut the road between Tuan Giao and Na San in 10 places.

Move Two Ways
Vietminh troops and convoys were reported moving two ways today: Into and out of the Thai country of northwestern Indochina. Those going in may be for reinforcing Vietminh positions in Thai capital of Lai Chau, 200 miles northwest of Hanoi, which the Vietminh occupied after the French pulled out on Dec. 11, 1953. They also may be intended to take over

Stoddard Danekas, Former Conservation Officer, Dies

Stoddard D. Danekas, 62, 508 Dixon av., Dixon, former conservation department officer in Lee county and one-time Republican precinct committeeman in Reynolds township, died about 5:30 p. m. Saturday in Madison General hospital, Madison, Wis., shortly after surgical treatment. He had entered the hospital Friday night.

Mr. Danekas, a native of Minonk, had farmed in Reynolds township before coming to Dixon two years ago. He had been long active in Lee county Republican politics and had served many years on the Dist. 112 school board at Steward and also on the Steward high school board.

The decedent was born in Minonk Nov. 20, 1891, the son of Frank and Meta Cirk Danekas. He was married to Freda Beutel, of Minonk, on Jan. 18, 1916, and the couple moved to a farm in Reynolds township, south of Rochelle. They resided there until coming to Dixon in June, 1951.

Mr. Danekas was a member of the First Presbyterian church, Rochelle, the Dixon Elks club, Freeport Consistory, Tebala Shrine, Rockford; president of the Brush Grove drainage district board, and past master of the Alto lodge, A. F. & A. M. Steward.

Mr. Danekas was a deputy

sheriff of Lee county for more than 30 years.

Survivors include his widow; two daughters, Marian, at home, and Ruth, a student at the University of Illinois; three sons, Franklin and Stoddard Jr., Rochelle, and Ward, of the 49th air rescue squadron stationed at Selfridge AFB, Michigan; three grandchildren; a brother, Walter, and a sister, Mrs. Dora Meinhold, both of Minonk.

Preceding him in death were his parents, a son, Arthur, who died in infancy and a granddaughter.

Funeral services will be held at 2 p. m. (C.D.T.) Tuesday in the First Presbyterian church, Rochelle, with the Rev. Glenn Strang, pastor, officiating. Burial will be in a Minonk cemetery.

Friends may call at the Unger funeral home, Rochelle, Monday afternoon and evening.

Reds Report De Castries Is Captive

TOKYO, Tuesday (AP)—A Vietminh communique broadcast by Peiping radio said today Brig. Gen. Christian De Castries was among those captured at the Indochina fortress of Dien Bien Phu.

The communique for the first time mentioned the heroic commander by name and confirmed previous reports that he had been made a prisoner.

"Brigadier Gen. De Castries, commander of the French sector in northwest Viet Nam and commander of the French beleaguered bastion at Dien Bien Phu, was taken prisoner by the Viet Nam peoples army," said the communique as heard in Tokyo.

The communique asserted that the Communist-led forces had "well treated the enemy prisoners and given them adequate care."

Col. Trancart, first deputy commander of the bastion was listed as among prisoners "killed or captured."

Predicts Approval For Ike's Proposal On Atomic Energy

WASHINGTON (AP)—Rep. W. Sterling Cole (R-N.Y.) predicted today that congress will approve President Eisenhower's proposals to exchange more atomic information with allies and to give private industry a go-ahead in developing peacetime power.

Cole, chairman of the senate-house atomic energy committee, said in an interview he has heard of no strong opposition to a comprehensive bill now before congress carrying out the President's program. Cole added a belief there is time for action during this session.

The measure also would tighten restrictions on dissemination of restricted atomic information with new clauses which Cole said could mean criminal prosecution of newsmen for reporting data they believe to be restricted, regardless of who gave them the information.

The measure would also provide: 1. Authority for the atomic energy commission to exchange information with U.S. allies abroad on the uses and performance of nuclear weapons, and on peacetime power.

2. New restrictions designed to impose what Cole termed "absolute liability" on officials divulging restricted information and on anyone, including newsmen, who knowingly transmits it to unauthorized persons.

Reds Reject French Plan, Propose Own

Agree to Removal of Wounded

Communists Seek Withdrawal of All Troops From Indo

GENEVA (AP)—The Communists "totally" rejected French terms for an Indochinese armistice today. They countered with a plan of their own.

The Communists agreed, however, to cooperate in quick action to remove the wounded from fallen Dien Bien Phu.

The Communist armistice plan was submitted to the nine-party Indochinese conference by the deputy premier of the Vietminh, Pham Van Dong, after he assailed the French plan for an internationally guaranteed armistice. Major points of the Communist plan were:

Recognition of the Communist regimes of Vietminh, Laos and Cambodia—the latter two labelled by the French as "phantom" governments.

Free Elections
Withdrawal of all foreign troops from Indochina.

Free elections, conducted along the lines already proposed by the Communists for Germany and Korea and rejected by the West.

The Vietminh plan, which was expected to be pushed by Soviet Foreign Minister Vyacheslav M. Molotov and Red China's Chou En-Lai, was certain to be rejected by the West as unacceptable.

The plan's points included: A pledge of no reprisals against persons found guilty of collaboration.

An exchange of prisoners of war. An armistice in Indochina. This would be given priority over all other provisions. The Vietminh proposed armistice would include a "readjustment" of occupation zones, a ban on import of troops and arms in Indochina and control of the armistice by mixed commissions.

Not Serve as Basis
The Vietminh representative, Deputy Premier Pham Van Dong, addressed a closed meeting of the nine-party Indochina conference shortly after the Viet Nam delegation had appealed for quick action to arrange for the removal of the wounded from Dien Bien Phu.

The unofficial Communist source said the Communists had decided the French proposal would not even serve as a basis for discussion.

Nguyen Quoc Dinh, Vietnamese foreign minister, handed his request to Soviet Foreign Minister V. M. Molotov, chairman of today's session. It said: "For humanitarian reasons and in view of the urgency, the delegation of the state of Viet Nam proposes that the conference consider the necessity of the evacuation of the wounded from Dien Bien Phu without delay before any consideration of the problem of an armistice and of the reestablishment of peace in Indochina."

J. C. Caroline Gets Deferred

CHAMPAIGN, Ill. (AP)—J. C. Caroline, Illinois halfback who was the nation's leading ball carrier last season as a sophomore, has received a student deferment from a 1-A military draft classification, it was learned today.

Caroline, who will attend summer school to make up several hours of scholastic work, failed in his first semester R.O.T.C. and was dropped from the course, records showed today.

He was classified 1-A, subject to the draft. He then received a routine student deferment (classified 1-S) which is good until January 1955. If his studies are satisfactory at that time, he can apply for another deferment.

Name Lawyer as Spy Prosecutor

New Jersey Attorney to Head New Justice Division

WASHINGTON (AP)—A New Jersey prosecutor today will be nominated to head a new justice department division charged with speeding the prosecution of spies and subversives.

The White House, in announcing Sunday night the creation of the new Internal Security Division, said President Eisenhower will nominate William F. Tompkins of Maplewood, N.J., as an assistant attorney general in charge of the unit.

Tompkins, as U.S. attorney for New Jersey since last June, has been fighting gambling and racketeering. He is 41.

The Internal Security Division, carved from the present Criminal Division, presumably will handle all cases dealing with treason, espionage, sabotage, defense plant security, loyalty of federal employees and allied matters.

Officials said the division will "centralize and fix responsibility" within the department for the handling of national security cases. Creation of the new unit came a month after the Army, Navy and

Air Force set up a joint program aimed at keeping the services free of security risks. Both actions followed criticism by Sen. McCarthy (R-Wis.) of the way the government has handled alleged subversives.

Norwegians Report Mysterious Flights

OSLO, Norway (AP)—Scandinavian countries have reported more mysterious flights over their territory by foreign aircraft. One such plane was identified as American, the Norwegian air force command said.

Li. Gen. Finn Lambrechts said yesterday Norway would ask Allied nations to be sure their planes respect Norwegian territory.

Dixon Schools Will Present Annual Concert on Friday

The annual spring concert of the instrumental music department of the Dixon public schools will be presented at 8 p. m., Friday, May 14, in the high school auditorium.

Instrumental groups will consist of the grade school junior band, grade school orchestra, grade school advanced band and the high school concert band. The high school dance band will appear as a feature at intermission.

Bardell Bowman, instrumental music instructor in the grade schools, will direct the three elementary groups, which will represent a total of approximately 185 students. Robert L'Heureux, instrumental instructor in grade schools and high school will direct the 65 piece high school concert band.

An advance sale of tickets is being conducted by the 250 participating students. Tickets also may be purchased at the boxoffice of the high school auditorium the night of the concert.

Order Army To Produce Information

Army Objects to Dirksen Proposal For Short Hearing

WASHINGTON (AP)—Senate investigators today ordered Secretary of the Army Stevens to submit the names of army officials responsible for Maj. Irving Peress—described by Sen. McCarthy as a "Fifth Amendment Communist"—an honorable discharge.

The action came on a ruling by Chairman Mundt (R-SD) of the committee looking into the McCarthy-Army dispute after the group postponed until later in the day a showdown on the question of cutting short public hearings.

Mundt ordered a closed session to discuss a proposal by Sen. Dirksen (R-Ill.) that public testimony be limited to Stevens and McCarthy and that any other testimony be taken in closed session.

Throughout much of the forenoon hearing, the McCarthy camp sought to develop its contention that the Army "coddled" Communists and stirred up the present hearings to head off the senator's digging into that situation.

At one point, Sen. McCarthy said Maj. Gen. Kirke B. Lawton, commander of Ft. Monmouth, N. J., was prepared to testify that the suspension of 35 employees of the radar laboratories there as security risks "would not have been possible" except for the investigation by McCarthy's subcommittee.

"Under The Rug"
Dirksen's proposal brought a protest from Army counsel Joseph N. Welch that this would "do violence to justice and equity" and a suggestion from Sen. Symington (D-Mo) that it was an effort to sweep the charges "under the rug."

Symington said he for one insisted the inquiry be held in a "goldfish bowl."

Sen. Potter (R-Mich.) retorted there was no effort to sweep the matter under the rug but there was no point in "hearing the same story told 10 times in 10 different ways."

Chairman Mundt, indicating he would go along with the Army, said he felt no procedure should be imposed over objections from principals.

Three or Four Weeks
Mundt said if the hearings continue as originally scheduled, it would take at least "three or four weeks more."

Once the argument over trimming down the hearings was laid aside, Roy M. Cohn, general counsel to McCarthy's subcommittee, began questioning Stevens—now in his 13th day on the witness stand. Cohn demanded that Stevens give the committee the names of officials named in an inspector general's report as having had a hand in the promotion and honorable discharge of Peress.

Honorably Discharged
Peress, a New York dentist, was honorably discharged from the Army last winter after refusing to answer questions from McCarthy by army officials and McCarthy. These turn on army contentions that McCarthy and his aides brought improper pressures for preferred treatment for Pvt. G. David Schine, wealthy New Yorker who was an unpaid consultant to the McCarthy subcommittee before he was drafted last fall.

McCarthy counter-charges that

Inspect Quad-Cities Area as Possible Air Academy Site

WASHINGTON (U) — The Air Force Academy, baby brother to West Point and Annapolis, is crawling out of its swaddling clothes.

In interviews today, Air Force officials told of its progress since April 1 when President Eisenhower signed the academy's "birth certificate"—legislation authorizing its construction.

The academy's permanent site may be chosen by May 15. A hunt for one has been on since April 9 when a five-man commission appointed by Secretary of the Air Force Harold E. Talbott took off from here by plane.

To Iowa, Kansas
The group announced Sunday it was leaving today to look at two more proposed sites—in Lee County, Iowa, (Quad-Cities area) and near Tonganoxie, Kan.

In the past month, the group has been hedge-hopping over millions of acres of land in search of a suitable tract of 15,000 acres on which to build the academy, a flying field and a tradition.

The Air Force instructed the group to look for a spot surrounded by naturally beautiful countryside, on comparatively level ground, near a budding cultural center, in a four-season moderate climate, and close to a good supply of water, natural gas, electricity and transportation.

Committee To Decide
The task of picking this ideal home was assigned to Iowa University President Virgil Hancher, newspaper executive Merrill Meigs, aviation hero Charles Lindbergh and Air Force Gen. H. R. Harmon and Carl Spaatz.

If the fall to agree on a single site, a majority must settle on three from which Talbott would make the final choice.

As soon as the academy's home has been announced, the Air Force will commission a group of arch-

itects to design not only a flying field, but a library, laboratories, dormitories, athletic fields, rifle ranges, and classrooms.

Summer of 1957
It will be the summer of 1957 before the academy is far enough along for cadets to use it. In the meantime the school will be housed at a temporary location, probably somewhere nearby.

Congress will furnish about 85 per cent of the nominees for air cadet training, with the rest coming from the territories, enlisted men on active duty, reservists and sons of deceased veterans. By examination, the Air Force then will choose those who can qualify.

Nominations already are being made for the first class of 200 cadets. The classes will gradually grow during the following four years until about 2,500 cadets will be in the corps.

Sometime this July the Air Force will announce detailed testing procedures, regulations and other information about getting into the academy.

Skyscraper Moves in, So Tavern Conducts Its Wake

By HAI BOYLE

NEW YORK (U)—A 26-cent cigar stuck up from the mouth of the corpse. Some said the corpse puffed. It didn't.

It was a real cigar in a dummy corpse. The corpse had the heavy John L. Lewis eyebrows of an Irishman named Patrick Moriarty.

There are plans to build a 35-story skyscraper on West 51st street between Fifth and Sixth avenues, and Moriarty was one of those who got caught with his leases down. As a matter of fact he never had a lease.

But he had to move, so Pat threw a farewell party.

A RUNDOWN JOINT
Pat Moriarty had taken over the tavern only four years before. It had been a rundown joint that newspapermen used to visit in an evening. The tunes on the jukebox evened. The tunes on the jukebox the house bought every third drink.

Final Meeting of Polo Mothers Club Features Exhibits

POLO — The final meets of the school year for Polo Mothers Study club will be held in the grade school Wednesday at 7:45 p.m.

In defiance of all business logic, and when a woman dared stick her head in the door the serious-minded students at the pinball machine shouted, "Get out, you bum."

Moriarty took over the place on a gamble, helped by the money that his wife, Ruth, a schoolteacher had saved. He threw out the elderly jukebox and the pinball machine. He put in good simple stern food, invited in women, ran a clean place where everybody felt welcome. In other words he wiped a wonderful saloon out of the world and turned it into a fine co-educational restaurant.

One The House
Pat threw a party on the house the other night, just before moving to a new location on Sixth avenue (West) near 52nd street — Howie's old place.

It was a wonderful wake for a tavern. A heavy-browed dummy corpse with a 26-cent cigar (Four for a buck) lay in state by the door. It looked exactly like Moriarty.

The celebrants included some advertising men, a group of Rockettes and technicians from the Radio City music hall, song writers and actors, writers from magazines like Colliers, Look, Time, Life, and two fellows who claimed they represented another magazine called the "Architectural Country Gentleman and Boy's Home Companion."

An innocent bystander from an impartial news service observed nothing unusual about this death of a fabulous tavern beyond this simple note:

"When the papier mache corpse found out that Moriarty was really buying at last, it sat upright in its coffin, called for a ham sandwich on rye and a double scotch, consumed them quickly, and then lay back complaining with a sigh, 'At Lindy's they include pickles.'"

Said Moriarty in farewell to 51st street:

"I am not a man to stand in the way of a skyscraper."

The rain fell hard as he turned the key forever on a door that led to many memories of many men. Some dead. Some not.

IT'S AMERICA'S "BEST SELLER"

Because it's America's Best Buy

Ford has pioneered in bringing the most worth-while things to the most people . . . and more and more people are now buying Fords

FOR A LONG TIME, people have recognized that Ford is the "Worth More" car. And they have been expressing their preference in a great and growing volume of purchases.

The reason is simple. More and more people have found in Ford everything they want and need. They have found that Ford offers exterior beauty that has set the trend for the industry . . . interiors that are so colorful and in such good taste that just sitting in a Ford is fun.

If you're in the market for any new car, you'll be missing something if you don't come in and value-check a Ford point by point. And when you Test Drive a Ford and find out what a brilliant performer it is, you'll really understand why Ford is America's Best Seller and America's Best Buy.

In the first place: Ford offers the two most modern engines in the entire industry: the completely new 130-h.p. Y-block V-8 and

the outstanding new 115-h.p. I-block Six. As for comfort—Ford is the only car in its field with Ball-Joint Front Suspension. This amazing new principle provides a degree of handling and riding ease that cannot be equalled in any car without this new suspension system.

Choice, too, is a department where Ford excels. You'll find just exactly the car for you among the 14 body styles and more than 100 body color and upholstery combinations in Ford's three great lines.

And consider these facts, too. Ford is a completely modern car. The advanced fine-car features that make it "Worth More" when you buy it, will also make it "Worth More" to someone else when you sell it.

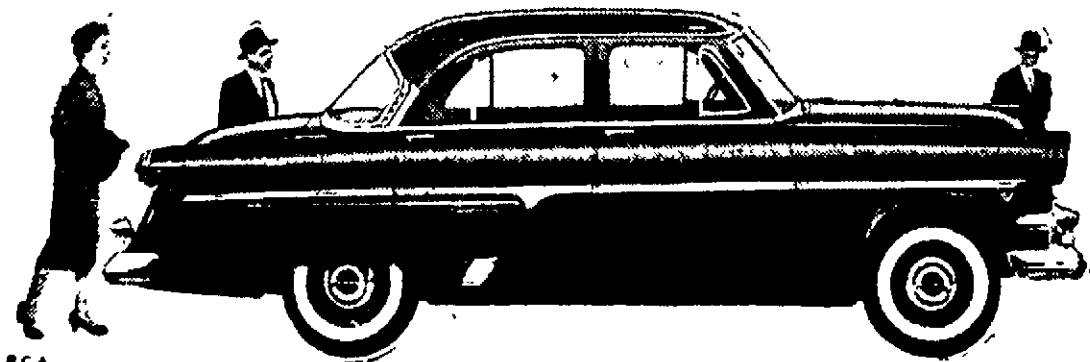

Why not accept our invitation to Test Drive a '54 Ford. We believe that you've never driven a car in Ford's field that is in any way comparable.

Norwegian Court Sentences Spies

KIRKENES, Norway (AP)—A Norwegian court has found five Norwegians guilty of spying for the Soviet Union. It sentenced four of them to jail terms ranging up to four years and ordered them to pay the government 25,000 kroner (about \$4,000) the Russians had paid them.

The fifth defendant could not be sentenced because of the statute of limitations.

All were convicted of spying on civilian and military installations, including air bases and defenses along the border between the Soviet Union and Norway's northern province of Finnmark.

The prosecution's star witness was Soviet Intelligence Lt. G. F. Pavlov, who gave himself up to Norway last summer and obtained political asylum.

Report Pressure

ANKARA, Turkey (AP)—Turkey accused Russia today of exerting pressure by propaganda and other means to force countries to give up their efforts toward collective security.

The charge, in firm, energetic language, was in a note to Moscow which the semi-official Anatolia News agency released here. It replied to a Soviet protest two months ago against the recent Turkey-Pakistan alliance.

New President?

BUENOS AIRES, Argentina (AP)—Reports from Paraguay today said Gen. Alfredo Stroessner, the 41-year-old army commander who held sway during last week's revolt, is expected to be elected president in two months.

The Colorado party, Paraguay's only legal political faction, called a convention for June 8 to select its candidate. Stroessner is campaigning for the nomination and is almost certain to get it.

Queen Elizabeth Visits Gibraltar

GIBRALTAR (AP)—The royal yacht Britannia brought Queen Elizabeth II and her family to "The Rock" today for their last gala reception before they sail home to Britain.

Most of Gibraltar's 25,000 inhabitants, undampened by neighboring Spain's protests against the royal visit to the colony, crowded the harbor area to watch the queen and the duke step ashore.

'For America' Group Elects Chicago Atty!

CHICAGO (AP)—Orville J. Taylor, a Chicago attorney, has been named to head the Chicago executive machinery of For America, a new political organization.

The group expects to fight internationalism, interventionism and communism in both major political parties. It was formed Friday in Chicago.

The organization includes among its members Col. Robert R. McCormick, editor and publisher of the Chicago Tribune, Gen. Robert E. Wood, retired chairman of Sears Roebuck Co., Hamilton Fish, former Republican congressman of New York, and Clarence Manion, former dean of the University of Notre Dame law school.

Taylor said he hopes to establish headquarters in Texas, California, Washington, D. C., New York and in other parts of the country as well as in Chicago.

Approve Bonds

MURPHYSBORO, Ill. (AP)—A \$120,000 bond issue to repair the present high school building was approved by Murphysboro voters Saturday.

A second proposal to add a farm machinery workshop and issue \$45,000 in bonds for its construction was defeated.

Report Leopold Will Try Again For His Parole

JOLIET, Ill. (AP)—Nathan Leopold, youthful thrill slayer of 30 years ago, was reported today planning to seek a rehearing of his petition for parole.

Leopold, 49, was reported by the Chicago American preparing to ask the state parole board's reconsideration of a decision not to consider parole for him until 1960 after learning for physicians that they believe he cannot live longer than another six or eight years.

Leopold and a friend, Richard Loeb, were convicted of killing a neighbor boy, Bobby Franks, for a thrill. Loeb was slain in Stateville by another prisoner. The ailing Leopold took part in voluntary experiments to test anti-malaria drugs. Other participants in the test program received special reductions in their sentences.

It Will Be Senator Joe Meek

When the ballots are counted in the November election the new United States senator from Illinois will be Joseph T. Meek. The Evening Telegraph cannot see any other possible result. This county will do its full share in helping to retire Senator Paul Douglas to private life where his socialistic ideas and plans cannot do so much harm to this republic of ours.

Douglas, you know, is the campaigner who has been groaning about depression and trying to frighten people with the thought of hard times ahead. Enough of that could cause hard times. People could be scared into tightening their purse strings to really cause a depression. But have no fear. The unemployment that Douglas has been harping on is being relieved in the natural course of events.

Joe Meek, the Republican nominee, is just the right kind of a man to inspire the confidence of the voter and to be elected. He is a sensible, normal mid-western American who has force of character and who cannot be stampeded by the one-worlders or the New Dealers or the eastern seaboard internationalists or by anything that is not for the best interests of a free America.

Abuse of Powers Real Issue of Army-McCarthy Hearing

As the army-McCarthy hearings drag on, one hears a great deal of comment to the effect that they are a terrible waste of time and taxpayers' money.

We ought, it is said, to be concentrating all our attention on the grave Indo-China situation, domestic economic problems, the president's program and similar serious matters.

There is no question of the gravity and importance of these latter issues. Nor is there any doubt that the army-McCarthy proceedings are fraught with endless confusion, digression and repetition.

But that does not mean they are either unimportant or a total waste. Nor is this just a lot of hullabaloo about what happened to one army private.

There are charges and countercharges in the air which go to the fundamental workings of the American government. They cannot be ignored.

The army has not charged simply that Senator McCarthy and his aides sought special treatment for a private named G. David Schine. The army contends that in pursuit of that goal the senator and his assistants employed the full weight and power of a senate committee; indeed, threatened reprisals if their demands were not met.

That is a grave complaint. The power of a senate committee under our constitutional arrangements is very great. If it can be employed to enforce the purely personal wishes of its wielders, if it can be used to disrupt and distort the normal, established procedures of the army or any other part of the executive branch, then the balance of forces in the American government is imperiled.

The countercharge is no less serious: That the army used a private who had been associated with a senate committee as a "hostage" in an effort to compel that committee to cease investigating alleged infiltration of subversives into the army establishment.

If the army or any executive unit could with impunity resort to such devices to block investigation by congressional committees, then congress would be frustrated in its legitimate function of probing steadily into the soundness and effectiveness of government operations. Congress has the duty to see that government is run in accord with the laws, and run well.

Investigation is its weapon in fulfillment of that duty. But the Constitution does not give to congress the power to administer the government. That is the function of the executive.

There is a vast difference between checking to see that government is run properly, and actually running it. A senator cannot, under the guise of mere checking, seek to substitute his decisions for those of the secretary of the army, of state, or any other department.

These are the issues at the root of this controversy. It is not a question of whether Schine did or did not perform KP on a certain Sunday.

Schine was just the "trigger" who touched off the dispute. If it had not been he, then sooner or later someone or something else would have caused the explosion.

No matter how painful the digressions, the chaos and the repetitions, these hearings must go through to their full conclusion. Only thus can we hope to approach the truth about whether either men in the senate or men in the executive branch have abused or tried to enlarge the power given them by the Constitution.

Give Dad Every Opportunity To Help Raise the Children

A father of three writes: "I've read several articles lately about the importance of the father in the home. The idea makes sense all right.

"But how does a man become important in a family where the children go to their mother for everything? The only time I am ever consulted about anything is when their mother doesn't want to say 'No' to them and so passes the buck by saying, 'Go, ask your Dad.'"

Let me talk to your wife for a moment, for the key to the problem is in her hands.

You're lucky in having a husband who wants to have a real part in bringing up your three children. Why not make the most of your luck?

Instead of using "Dad" only for his veto power, why not give him a chance to share in some of the fun of parenthood?

GET DAD IN THE ACT

Give him a chance to make some of the "Yes" answers to your children's requests.

Give him a chance to satisfy some of their wants. If Johnny wants a bicycle more than anything else in the world, don't go out and buy it for him yourself.

Send him to his Dad with the request and let his Dad be the one to "understand" the importance of the bicycle and the one to take him down to pick it out.

Make opportunities for letting the children know that they can count on Dad in emergencies just as much as they can count on you.

It's impossible to be too "good" a mother, you know... because if the mother is the one who always understands and always is the one who helps the children get what they want, Dad is left clear out of the picture.

So give your husband a chance to be a good Dad, too.

So They Say

All of these charges (against me) are false, untrue and malicious and must have been known to be false and untrue by Senator McCarthy when he made them.

—H. Strive Hensel.

The truth is that where President Eisenhower would like to lead this nation and where he will be able to lead it are two quite different things.

—Sen. Thomas Hennings Jr. (D., Mo.).

You ain't learnin' nothin' when you're talkin'.

—Sid Richardson, wealthy Texas oil man.

The only threatening calls I get are from crackpots. I do not answer the door with a gun in my hand. I did buy Jeanie (Mrs. McCarthy) a Doberman Pinscher which is well-trained.

APPLE VALLEY, Calif. — It's in the California history books that Kit Carson scalped his first Indian when he caught him stealing a bottle of steak sauce, or something, during a wagon train steak fry and square-dance frolic here a hundred years ago.

It was the first and only hair-raising event in this scenic and peaceful Mojave desert valley until Dean Martin and Jerry Lewis camped here overnight to premiere their latest Paramount movie, "Living It Up."

Old Kit's achievement can now be forgotten. Apple Valley, already famous for its mushroom growth in six years, will be talking about the famous Martin and Lewis expedition for the next 100 years.

There were no lost scalp, but several Apple Valley Inn waitresses are being treated for nervous disorders after meeting zany Jerry in the flesh.

Newt Bass of the inn (the also owns the valley and the golf course) hosted the affair and helped everyone live it up. He may still be counting the silverware, not to mention all the signed checks, but it was obvious he had the time of his life.

So who's going to get mad just because he hid his little, old, private airplane from Jerry's roving, prop-mad eyes?

Paramount dreamed up the champagne-spiked head-on for 70 members of the Hollywood press and men of the George Air Force Base near here.

But if Dean and Jerry were ready to scalp each other because of a personal feud, as the smoke signals insist, I'm nominating them right now for the best-acting performances of 1954.

Helping the press live it up for two days and nights, they laughed it up in palmy fashion at a big desert steak fry; on the bandstand of the Apple Valley Inn; beside the pool and at breakfast, lunch and dinner.

Dean's disappearance just before the premiere at the George Base was the only indication that things have changed with them.

It was explained that Dean is facing a minor operation for an irritating ailment and he craved peace and quiet. After the first night's revelry, no one blamed him.

But he missed the chance to hear John Charles Thomas singing off key for the first time in his life.

The press boys and their wives, in a gay mood, blended voices in a songfest on the bus ride to the premiere at the Air Force Base.

Thomas, who has a home in Apple Valley and who was Paramount's guest at the premiere, joined in on such hits as "I've Been Working on the Railroad."

"Smiles," and "It's a Grand Old Flag."

The singing star, I'm unhappy to report, was the only one off key. He could have been the only one on key, of course, but he politely didn't mention it except to say:

"Shaking It Up" might have been a better title for the picture.

Best gag in the film: Jerry passing an Indian and flipping: "Hi, Shamus."

Irene Dunne's "Sister Veronica" for TV Screen Gems is a trial balloon for a whole series about a nun in charge of a big hospital. If her fans like the idea, Irene will make more films.

Rita Hayworth's father has taken display space on his stop benches all over Hollywood for his dancing school. The ad reads:

"Eduardo Cansino—Father and Teacher of Rita Hayworth."

A—It is the third largest agricultural crop in the U.S., following corn and wheat.

Q—How old was Joan of Arc when she led the French army to the relief of Orleans?

A—Seventeen.

Wiley, Snubbed by Wisconsin Young GOP. Now Praised

MILWAUKEE (AP) — Sen. Alexander Wiley (R-Wis.), snubbed last week by Wisconsin's Young Republicans, has received the unanimous commendation of the Executive Board of the Young Democratic Clubs of Wisconsin.

Wiley, chairman of the Senate Foreign Relations Committee, was praised by the Democrats for his key role in putting the St. Lawrence seaway through Congress.

A similar resolution was defeated by a voice vote at the state convention of the Young Republicans last Sunday.

Wiley has been in disfavor with many state Republicans because of his opposition to the Bricker amendment.

(Copyright, 1953, King Features Syndicate, Inc.)

NEW YORK—Harry Truman has called the attention of his old friend, Max Lowenthal, to an article in Harper's blasting the Federal Bureau of Investigation. He suggested that Lowenthal read the story, done by Alan Barth, described as a member of the editorial staff of the Washington Post which sympathized with Alger Hiss after his conviction of perjury with plain implications of treason.

Truman asked Lowenthal for his opinion of the story and offered to write his for Lowenthal.

Lowenthal is the Washington lawyer who outfoxed the House Committee on Un-American Activities and managed to refrain from naming private forces which brought about his selection to go to Germany as an "adviser" soon after the victory. He has been shown up in association with the late Carol Weiss King, who specialized in Communist cases and with other questionable characters of the same hue. Jonathan Daniels, the editor of the Raleigh News and Observer, who was Truman's personal assistant in the White House, wrote that Lowenthal was the first one to think of running Truman for vice president, realizing that Roosevelt's number was up and, in effect, was the king-maker of the Truman regime of almost eight years.

Congressman George A. Dondero, of Michigan, made a long inventory of Lowenthal's personality and activities on the floor of the House on September 1, 1950 in which he said: "Within a matter of weeks," after he landed in Germany after pulling strings in Washington, "he (Lowenthal) was known as the general counsel to General Clay and had as an assistant George Shaw Wheeler, the American traitor, Communist and renegade who shocked all America when he denounced the land of his birth and asked Communist-controlled Czechoslovakia for asylum." Lowenthal later denied that Wheeler was actually his "assistant" but his testimony was very vague and evasive on many points.

Barth's article is a gratuitous attempt to discredit the evidence which the FBI turns up against Communists. He says that in the mid-Forties, the FBI's reports were "widely discounted if not disregarded by officials of the executive branch of the government."

That seems to have been true, but the reason might have been that a government infested with traitors under the patronage of both Roosevelt and Truman would have had base reasons to suppress information from the FBI and to refuse to act on it. Barth presents a small selection of utterly trivial reports which are attributed to the FBI and argues that these selected items are sufficient to discredit the bureau entirely. On the other hand, he concedes that the FBI is very secretive with its information, which would mean that he has no means of knowing how substantial its reports are. Moreover, to discredit Miss Elizabeth Bentley, an informant whose work embarrassed the whole regime which had truck with traitors and much of its inspired press, Barth reports that some individuals whom she exposed were not indicted and that some indictments were dropped.

Again the motive of self-preservation arises to explain the situation. For the Department of Justice was no less guilty than the Treasury and the State department. And it possessed the power to protect Reds by making weak presentations to grand juries and trial juries. Moreover, some partisan judges slanted justice toward the Reds.

Judge Claude McCulloch, of the U. S. Court in Portland, Ore., was quick to defend the FBI in a letter to the editors of Harper's.

"Mr. Barth's article is shallow beyond belief," he wrote. "Taking only the most fragmentary data from thousands of reports, comprising millions of words, the author concludes: 'Perhaps the story made by the FBI, with their fuzzy mélange of unvaluated material, compelled discounting.'"

"If Mr. Barth had wanted to make a fair appraisal of FBI reports, he could have obtained access to a mass of them by methods well known to newspaper reporters. No city editor on any paper of importance would stand for such a poor job of reporting."

In part I have to disagree with the judge there, for I have found the FBI uncommunicative and I believe few reporters have access to much of its information. However, I will string along on his opinion of Barth's "reporting," for it seems to me that he bases heavy conclusions on flimsy evidence.

Judge McCulloch continues: "Judge Thomas F. Murphy, who prosecuted Hiss, told me he had never been disappointed in an FBI agent or the character of his work. I can back Judge Murphy's statement from 16 years of working with these boys. Indeed, I have never heard any federal judge speak critically of G-Men. The shallow effort of Barth to discredit them is laughable. Yet, you deemed Mr. Barth's article deserving of the number one spot in your publication."

Senator William Jenner recently said the New Dealers in the Eisenhower administration in the White House itself, had a plan now to abolish congressional investigations and to discredit the FBI. Jenner holds that there is a plot afoot to change the basic nature of the government by creating a tolerance for Soviet Russia and forgetting past acts of disloyalty. The degradation of Congress to a minor status in the Washington scheme would be part of the scheme.

Lowenthal may be remembered as the author of a book abusing the FBI which came out during Truman's presidency. The FBI doubtless does possess a "dossier" on him in view of his associations over a period of more than 30 years. Truman's prompt reminder to Lowenthal and his offer to exchange opinions of the story indicate Truman's attitude toward the FBI as he has never revealed it before.

Thief Shoots, Kills Chicago Radio Employee

CHICAGO (U)—A radio station employee was shot to death today, Police said, apparently while trying to aid his young woman companion whom a robber was trying to rape.

He was Richard H. Dix, 24, described as a "platter turner" for a WMAQ (NBC) disk jockey program. Dix was dead on arrival at Belmont Hospital with five gunshot wounds.

Police said Carol Giddens, 19, told them a young gunman entered Dix's automobile while they were parked at 3018 Fletcher St. on the Northwest Side. Miss Giddens said the robber took \$20 from Dix, tied up her and Dix with wire, and attempted to rape her.

Dix, according to her account, freed his hands and when he tried to help her was shot. The gunman abandoned them and the car at Belmont and Troy.

Rescue Girl After Three Hours in River

MEMPHIS, Tenn. (U)—Ten-year-old Darlene Roaten, who doesn't swim, supported herself with a small piece of cork for more than three hours Sunday while the current swept her 10 miles down the Mississippi River.

Her father, J. S. Roaten, meanwhile, swam more than two hours to rescue his wife and their son Bobby, 8, after they and Darlene had stepped out of an underwater sandbar into the swift Mississippi current.

Roaten threw them pieces of old life jackets and leaped from their 17-foot motorboat and swam to the rescue of his family. He left another son, Michael, 4, in the boat with the motor idling.

The boat began drifting and Roaten swam after it for more than two hours before he regained it. Then he used the boat to pick up his wife and Bobby but Darlene had drifted out of sight.

She was picked up just before dark by the towboat Zephyr out of St. Louis. A witness said the piece of cork supporting her was about half the size of a cigar box.

The family was on a pleasure cruise in a 17-foot inboard motorboat.

The Pyramid of Cheops in Egypt covers about 13 acres and contains about 2,300,000 blocks of stone weighing 2½ tons each.

FLY FISHING—No, these youngsters are not fishing on dry land. They've just found an easier way to reel out a kite. Kenny and Gary Burt, of Salina, Kan., rigged up a fishing pole when they got tired of spooling their kite string by hand.

Illinois Youth Irked Over Fireworks Ban

SPRINGFIELD, Ill. (U)—Thirteen-year-old Cecil Upshaw insists that "just because someone burned their fingers" is no reason for "snubbing" the Fourth of July.

Young Upshaw, who lives in Cairo at the southern tip of Illinois, so expressed his ire at a legislature-imposed ban on fireworks.

His letter to Atty. Gen. Latham Castle was made public Saturday.

"Maybe you think someone will be killed," Cecil wrote, "or if that is true, how come you don't prohibit the use of automobiles? They kill more people in one day than fireworks could do in a year."

Castle said he wrote Cecil that the attorney general doesn't make the laws, but merely advises state agencies concerning them.

Wind Kills Seven In Northern Japan

TOKYO (U)—Winds of cyclone force whipped across northern Japan Sunday night, killing at least seven persons and leaving 34 missing, national police reported.

Kyodo news agency said more than 2,600 homes were destroyed or damaged by the howling storm.

Democrats Ask for Change In Nation's Foreign Policy

WASHINGTON (U)—Democratic demands for a change in America's foreign policy flared anew today in the wake of reports of free world setbacks in Europe and Asia.

Some minority party members criticized this country's allies. Others took swipes at the Eisenhower administration's handling of foreign affairs, which in turn was defended by Republican leaders.

President Eisenhower convened a special session of the strategy-making National Security Council Saturday, the day after word arrived of the fall of the Indochina fortress Dien Bien Phu to the Communists. Secretary of State Dulles, a Security Council member, conferred with a number of Republican senators afterwards.

Sen. Smathers (D-Fla.) said in a speech prepared for Senate delivery today that developments in Indochina and Geneva prove that this nation's "old allies," including Britain and France, no longer stand up with us in "resolute determination to oppose Communist aggressions."

Calling for a complete shift in foreign aid and trade programs, Smathers said Latin-American nations such as Brazil, Chile, Peru, Colombia and Venezuela should be moved from the bottom to the top of the list for U. S. aid.

At the Geneva conference, Smathers said, England and France failed to support the United States and gave that conference some of the "awful aspects of a Munich."

Stephen A. Mitchell, Democratic national chairman, said during a TV debate Sunday that the Eisenhower administration has so many foreign policy spokesmen the American people are confused. He predicted that by the end of this year Dulles would be out of office.

"Oh, no," was the immediate response of Republican National Chairman Leonard Hall.

Israeli-Jordan Clash Reported

JERUSALEM (U)—Three Israeli soldiers and a Jordan farmer were reported killed in clashes along the Israeli-Jordan frontier Sunday. Two Israeli policemen were reported missing and believed dead.

Jordan officials said their forces killed an officer and a private from the Jewish nation in repulsing an attack by a band of 90 Israelis on the Jordan village of Illin, in the Hebron area.

The officials said the Israeli band fired on Jordan members of the U. N. mixed armistice commission and its American chairman, U. S. Navy Cmdr. Elmo Hutchison, when they went to Illin to investigate the incident.

Woman Missing

BERLIN (U)—Police reported today that Mrs. Heinz Glaeske, wife of a West Berlin architect who disappeared with Russian resistance leader Alexander Truchnovich April 13, is now also on the missing list.

Police said a relative had reported seeing her last Saturday in the Soviet sector of Berlin. Mrs. Glaeske, the relative was quoted as saying, planned to stay there and attempt to see her husband.

HE'D BETTER BEHAVE—Don't rub your eyes—it's true. Pretty Elvie Paulsen lifts her 150-pound husband, Pilon, above her head with the greatest of ease, during a musical act in Hamburg, Germany. The muscle-packed glamor girl also seems to be taking things in stride as she carries on a telephone call while balancing her husband on her lower leg. Elvie claims she gets her strength by eating three spoons of chopped shark's tail for breakfast. However, she's not strong, or fast enough, to be in two places at once. This is a composite picture of two of her most difficult poses.

Four Area Schools Qualify Boys for State

OREGON'S MILE RELAY TEAM OF Dick Johnston, Jim Robson, Ed Bowers and Dick Haas, will be the third straight team from that school to compete in the state track meet at Champaign over the weekend. Oregon finished second to West Rockford in the event Saturday at the Rockford district meet.

GENE GORAL of Dixon put on a tremendous spurt to come home second in the mile run at the Rockford district Saturday. By finishing second, Goral qualifies to run in the state meet at Champaign. His time was 4:43.5.

DON SPOTTS AND KAY DRAPER blaze home in one two order in the finals of the 100-yard dash at Rockford Saturday to qualify for the state meet at Champaign. Spotts, left, nipped Draper at the wire. He was clocked at :10.1 while Draper was timed at :10.2.

ROCKFORD—Dixon, Amboy, Oregon and Rochelle all send representatives to the Illinois State track meet at Champaign Friday and Saturday as a result of their qualifying in the Rockford district meet Saturday afternoon.

Rochelle also scored in the 880 yard relay when the team took fifth place.

Ron Shippert, clearing 5' 7 1/2", took a share of a three-way tie for third place in the high jump. Nolden Gentry of West Rockford won the event with Floyd Smith of Mt. Carroll second.

Other Oregon points were scored by Dick Johnston who gained part of a four-way tie for third place in the pole vault and the Oregon 880 yard relay team which took third place.

Marvin Dennis, running the mile in 4:49, won his heat but took fifth in the event to score Byron's one point.

Third Straight

Oregon will send its mile relay team of Dick Haas, Dick Johnston, Ed Bowers and Jim Robson. This will mark the third straight year that Coach Ed Gebhardt has sent his mile relay team to the state meet. Strangely enough, not one of the boys on this year's team was a member of the first state team. Oregon finished second to West Rockford in the relay.

West Rockford, with 32 points, won team honors in the meet Saturday, followed by East Rockford with 43 1/2 points and Dixon with 24 points. DeKalb was fourth with 19 1/2 points.

Other school's scoring: Rochelle, 12; Oregon, 11 1/2; South Beloit, 11; Savana, 8; Amboy, 6 1/2; Freeport, 6; Mt. Carroll, 4; Sycamore, 3; Mt. Morris, 2; St. Thomas, 2; Stillman Valley, 1 1/2; Monongah, 1 1/2; Byron, 1; Shannon, 1.

Two records were set in the meet. As expected, Jimmy Bowers, DeKalb, smashed the mile mark. Bowers was clocked at 4:32.8 minutes, cracking a 24 year old standard set by Lyle Hutton of Savanna in 1930. Hutton's old record was 4:35.3.

West Rockford's Bob Pellant shattered the old district mark. Pellant heaved the disc 151' 5" to shatter the record set by Behan of Crystal Lake in 1942.

Dave Northrup of West tied a record in the preliminaries of the low hurdles when he was clocked at :21 seconds. In the final heat, Northrup won at :21.1.

Thrilling Duels

The 100 yard dash was the thrilling duel between Draper and Spotts that was expected. In the morning preliminaries, Draper was clocked at :10.2 while Spotts' time was :10.3.

In the finals, three false starts prolonged the race. Finally, on the fourth start, it became official. At the finish, it was Spotts a step ahead of Draper and East Rockford's Ronnie Johnson a step behind Draper. All three qualified for the state meet. Spotts' time was :10.1, while Draper was :10.2 and Johnson was :10.3.

A second anticipated duel materialized in the 880 yard relay between Dixon and East Rockford. Both were placed in the same heat. Dixon's Spotts opened and took a lead. Wooten and Hamill lost a little and when Draper got the baton, Dixon trailed East by about two yards. Draper took off in hot pursuit of East's Al Walker and caught him on the last turn and came home in first place.

Best Race

In the 220 yard dash, Draper and Johnson again fought it out but this time Johnson had the edge and breezed home 2 seconds ahead of the Dixon speedster.

Gene Goral ran the best mile of his career, clicking it off in 4:43.5. Goral got off to a fast start and trailed West Rockford's Dave Stern for the first lap. After Bowers of DeKalb had moved into first place, Goral took over the second spot and held it against a determined bid by Stern in the last 300 yards. With Buser having trouble in the pole vault, the field was wide open for Amboy's Don Koch and Rochelle's Bob Bjorneby to set the pace. Both cleared 11' to tie for first place.

Aiding Dixon in the scoring column were John Wooten who took fifth place in the 220 yard dash and Bob Hamill who gained a share of third place in the broad jump.

Martin Spiked

Mt. Morris' Don Henderson scored a fourth in the 880 yard run, being clocked in 2:06.4, to score all his team's points. Roger Martin of the Mounders squad, was running third in his heat of the 440 yard run when he was spiked going around the third turn. He lost his shoe and though he failed to wind up among the winners, he did finish the race.

Lyle Smith and Ron Hill both scored in the discus for Rochelle. Smith heaved the discus 130' 1" for third place while Hill threw it 122' 8 1/2" for fourth place. Hill tied for fourth in the shot put.

Hawks Tie for Fourth

Dixon 7th in District Golf

ROCKFORD—(Special)—East Rockford scored a three stroke extra holes victory over Freeport Saturday in the district golf tournament at Sandy Hollow golf course.

Oregon rolled into a fourth place tie with Belvidere, followed in order by Mt. Morris, 6th; Dixon, 7th, and Rochelle, 8th.

Though Oregon bested the other three Dixon area teams, Mt. Morris had the best individual among the four schools as Dick Zickuhr fired a 41-39-80 to gain a tie for third place in the tournament. In a playoff, Zickuhr gained fourth place, losing to Chuck Kittleson of DeKalb but beating out defending champion Pat Keefe of Freeport and Bill Dorman of Freeport.

Henry Utley led the Dixon golfers with a 40-49-89 while Ted Schroeder was next with 81 followed by Utley Noble with 93 and John Peterson with 96.

Dave Johnson set the pace for Oregon with a 40-44-84. Lanny

Kiest, Dan Etnyre and Chuck Cleaver all got in under 90.

For the first time in quite a spell, Rochelle failed to have a man score under 90. Ron Ormap led the Hubs with 45-46-91.

In winning to tournament, East Rockford will go to the state meet.

SPORTS VISITORS HOME WHAT'S THE SCORE By Norm Jollow

JOE JOST, FORMER PRINCIPAL and grade school coach at Polo, has accepted the position of head football and track coach at the Polo high school, succeeding Richard (Dick) Folk, who resigned recently to devote his time to his business enterprises.

In addition to his head coaching duties, Jost will serve as assistant basketball coach to Charles Ketter and he will teach physical education and civics.

JOST IS A GRADUATE of Pontiac high school where he played football and participated in track. He graduated from Knox college in 1910 where he had one year with the varsity football team. At Knox he received a B. A. in education and social studies.

Following graduation, he was assistant and then head football coach at El Paso high school for two years where his teams won eight and lost one the first year and had a 2-6 mark the second year.

He moved to Bureau Township high school in 1931 where he was principal and assistant coach.

HE IS COMPLETING HIS SECOND YEAR at the Polo grade school. Last year, his lightweight basketball team won 12 and lost three. They were county champions. This year, the heavyweight team won the conference championship and the county tournament.

Jost is married to the former Mary Stuart of Galesburg. They have two daughters.

WILLIS PITTEGER, HIGH SCHOOL principal, reported that Russell Kramer would serve as assistant football and track coach. Charles Ketter will be head basketball and golf coach and assistant football coach.

THE LONG AWAITED DUAL meet between Dixon and Sterling will take place here Tuesday. Both teams have displayed the ability to win first places and recently we checked and reported that the victories would just about even out. That would mean the team with the most reserve strength should win the meet.

Dixon has probable victories in the 100 and 220-yard dash, the mile run, the 880-yard relay, the broad jump and the pole vault.

STERLING HAS STRENGTH in the two hurdle events, the shot put, the discus, the high jump and the 880-yard run.

Apparently up for grabs are the mile relay and the 440-yard dash.

FROM THIS CORNER, out on the limb again, we pick Dixon to win the meet by about five points.

AMERICAN ASSOCIATION SUNDAY'S RESULTS: Charleston 3-2; Indianapolis 2-0; Kansas City 2; Columbus 1 (15 innings); Toledo 11-2; St. Paul 2-8.

THREE-LEAGUE Cedar Rapids 18; Peoria 12; Terre Haute 8; Burlington 4; Evansville 4; Rockford 3; Quincy 12; Waterloo 3.

Hank Henry Looks at Sports

The Dixon Dukes finished third with 24 points at the Rockford district track meet Saturday, while the same day Sterling's Warriors finished third at the Rock Island District with 27 1/2 points. The nearness of the team totals is a big indication of the fine dual track meet coming up between Dixon and Sterling at Dixon this Tuesday.

Congratulations to the 880 relay team of Don Spotts, Johnny Wooten, Bob Hamill and Kay Draper and to Don and Kay for their individual performances. If either one of them or Draper and Kay get away from the blocks consistently well in the 100 at the Illinois state meet this weekend, they might well place in the event.

Gene Goral ran the best mile of his career in coming in second to the district record-breaker, Jim Bowers of DeKalb. This boy from DeKalb is a strong possibility to win the mile at the State. I think, for a 4:32.8 is an exceptionally fine time for high school.

Probably the most disappointed Duke was Clarence Buser who was off form Saturday in the pole vault. The winning height was 11 feet, and Clarence has cleared that height consistently this season. From past performances, Clarence should have won the event, but that's athletics and life itself for you—it's not what you've done in the past but what you can do today.

You can avoid disappointment if you come in soon to select the SAMSONITE LUGGAGE that your boy or girl graduate wants. Remember that SAMSONITE is truly the ideal gift for Him or Her.

The Dixon high golf team played 18 holes Saturday in the District meet at the Sandy Hollow course in Rockford. From reports most of the boys differently to play the way they were designed to be played. Anyway, it was fun, they report, and the young Duke golfers got some experience.

Begin City Singles, Doubles Bowling Tournament Today

Engineers Capture City Team Title

Hey Novelties Is Second, Wayne Feeds Holds Onto Third

Singles and doubles sections of the Eighth Annual City Men's Bowling Tournament get underway tonight following the completion of the team event Sunday which saw no changes in the top 10 over the weekend.

Team event winner was the Engineers who rolled a 3,000 game on Wednesday night and then sat back while other teams tried and failed to catch up.

Engineers' total was 115 pins short of the winning total racked up last year by Quality Cleaners and the teams in general found the pins difficult to tumble at the Lincoln Lanes alleys.

Second place went to Hey Novelties with 2981 pinfall, followed by Wayne Feeds which took the lead on Monday night, fell to third on Wednesday and then held that position to the end.

Cy Winebrenner of the Reynolds' Wire League Loafers, had five straight strikes in his second game and a perfect hit on the sixth ball found one pin doggedly standing up to spoil hopes of a perfect game. Winebrenner wound up with a 254 to lead his team to high for the night with a 2355 series.

High team game for the tournament, was rolled by Wayne Feeds with 1120. Hey Novelties was second with 1111, followed by Engineers, 1057; Loafers, 1050; Engineers, 1043, and Chapel Hill, 1033.

High series went to Earl Burkert with 610, followed by Clet Wiedman, 605; James Hey, 603; Ken Detweiler, 602; Harold Bay and Dale Semmelf, 600.

High game honors were won by Wiedman with 268, followed by Morris Rosbrook, 254; Cy Winebrenner, 254; Mel Brucker, 245, and John Hyland, 238.

Allen Cain Pitches No-Hitter for Byron in Sub Dist.

DAKOTA — (Special) — Allen Cain hurled a no-hitter to pace the Byron Tigers to an opening round 8-1 victory over Orangeville Friday. Cain, however, lost the shutout when Orangeville scored an unearned run.

Cain fanned 10 batters and walked six in going the route for the Tigers. He ran into trouble in the fifth inning when he walked one batter, hit a second and threw the ball wildly into centerfield on an attempted pickoff play at second base.

That put the Tigers behind, 1-0, but his teammates quickly rallied to pull out the victory. Tom Dowd opened the fifth by walking. Bob Boyer walked and then Roger Reever was safe on a fielder's choice. Gary Hess singled home Dowd and after Marvin Dennis had flied out, Gene McNamee doubled home two more runs.

Byron meets Forrester today for the right to meet the district winner.

Tigers Most Improved, Rap Chisox

Cub Homers Nip Spahn, Braves; Dodgers Take Lead

By JOE REICHLER
AP Sports Writer

Rival American league clubs are beginning to take the amazing Detroit Tigers seriously.

Last Sunday, after the Tigers had blanked the Yanks at Yankee Stadium, New York Manager Casey Stengel called them the most improved club in the league.

Yesterday, after the Tigers had whipped the Chicago White Sox 3-2 in the first game of a double-header and held them to a 10-inning 0-0 standoff in the second game, White Sox Manager Paul Richards voiced Stengel's sentiments.

Today, the Tigers are in first place with 11 victories against only five defeats, a half game in front of Chicago, a full game ahead of Cleveland and two ahead of the defending champion Yankees. They return home with a brilliant 5-1-1 record for their first road tour.

Eighth Win
Sunday's victory was Detroit's eighth in nine road decisions. Last year at this time the Tigers had dropped all seven road games.

In other American league games, Baltimore defeated Cleveland 2-1 in 10 innings, and the Yankees whipped and tied Philadelphia in a double-header. Three home runs gave the Yanks a 7-4 opening-game triumph and rookie Bill Skowron's run-scoring single in the eighth gave them a 1-1 tie in the second game, halted after nine innings on account of darkness. Rain washed out a scheduled double-header between Washington and the Red Sox in Boston.

Brooklyn opened up a half-game lead in the National league, nipping the Philadelphia Phils 2-1 while the second-place Cincinnati Redlegs split a double-header with St. Louis. The Redlegs came back to win the second game 6-5 after the opener 10-7. The New York Giants wallowed Pittsburgh 5-1 and the Chicago Cubs edged out Milwaukee 5-3.

It took Detroit 11 innings to defeat the White Sox in the opener. The winning run crossed the plate when Cass Michaels committed a throwing error with two out and the bases loaded in the 11th. Gromek went all the way, giving up nine hits and walking one for his fifth victory without a defeat. Virgil Trucks, who relieved starter Sandy Consuegra in the 10th, was charged with the defeat. Southpaw Billy Hoelt of Detroit and

DON KOCH, AMROY (left), and Bob Ejerneby, Rochelle, shared first place in the pole vault in the Rockford district meet Saturday as both cleared 11'. The pair will represent the district in the State meet at Champaign.

Billy Pierce of Chicago hooked up in the scoreless second-game duel. Pierce fanned 12 to Hoelt's eight. The Indians missed an opportunity to pass Chicago for the runner-up spot when Turley held them to four hits. Gil Coan's single scored Neil Berry with the run that hung the tough defeat upon Art Houtteman.

Seizes Big 10 Baseball Lead

CHICAGO (AP)—Michigan State Spartans seized the Big Ten baseball lead at Iowa City and held on to it firmly at Minneapolis to conclude a triumphant weekend.
The Spartans beat Iowa 6-3 Friday, then journeyed to Minnesota and handed the Gophers a double licking, 8-5 and 6-2, on Saturday.
In other doubleheaders Saturday:
Illinois and Ohio State split, Illinois winning the opener 4-3 on Gerry Smith's eight-hit pitching and the Bucks taking the nightcap 7-1 as Harold Northrop hurled a four-hitter.

Santee Sets 2-Mile Mark

LAWRENCE, Kan. (AP)—Wes Santee returns to his favorite stretch Saturday after setting an intercollegiate 2-mile record of 8:58 in a triangular meet last weekend.
Santee will run both the mile, at which distance he's the American record holder, and the 880 when Kansas duals Missouri at Columbia, Mo.

Fight Tonight

NEW YORK (AP)—Floyd Patterson, the wonder boy of the 1952 Olympic boxing team, may be heading into deep water if he gets past Jesse Turner tonight at Brooklyn's Eastern Parkway.

Joey Maxim, the clever ex-champ with the talented left hand, is being talked up as Patterson's next opponent with a tentative June 7 date. Pat Joey is head and shoulders above the type of boys Patterson has been knocking over in 12 pro starts.

Your engine may be 15% more powerful than you think

Shell Premium Gasoline with TCP,
the greatest gasoline development
in 31 years, sets free the captive power
formerly "locked-in" by lead deposits.

You'll feel your engine's had a
tune-up before you finish your
second tankful.

No matter if your car is a current model
driven only a few thousand miles, or an
"old faithful," you can enjoy up to 15%
more power! This extra power is in your
engine right now but it's "captive power"
—trapped by the steady accumulation of
lead deposits.

What happens is this: These deposits,
which are constantly forming, build up in
the combustion chamber and on the tips of
your spark plugs.

In the combustion chamber they glow "red
hot"—igniting the gasoline mixture ahead of
time. Power fights against you—not FOR
you. This condition is called pre-ignition and is
responsible for wild ping, a most severe kind
of knock.

When the deposits build up on your spark
plugs—sometimes in as little as 2,000 miles—
they cause the plugs to short-circuit. This makes
your engine miss... especially when you don't
want it to miss—such as when climbing a hill or
passing another car.

But now there is a way to cancel out the
trouble these deposits cause—a way that sets

free that captive power. Shell scientists have
discovered a fuel additive—TCP—which is
utterly unique.

Blended into Shell Premium Gasoline, it does
two things for you. First, it "fireproofs" the
deposits in the combustion chamber so they
can't cause pre-ignition. Power works for you
—not against you.

Second, it modifies the deposits on your spark
plugs so they can fire as they should—fully and
on time.

Shell Premium with TCP additive unlocks
the captive power in your engine so quickly
you'll feel it's had a tune-up before you've
finished the second tankful.

No wonder that Shell Premium with TCP,
the greatest gasoline development since the
introduction of tetraethyl lead, is the biggest
sales success in petroleum history.

Shell Premium with TCP is available only at
your Shell Dealer's.

Red General Praises U. S. War Effort

MOSCOW (AP)—Marshal Georgi K. Zhukov, commemorating the World War II victory in Europe, conceded Sunday that Britain and the United States played a heroic wartime role. But afterward, he charged, America turned toward a policy of aggression.

A lengthy article by the first deputy defense minister was displayed prominently in Pravda, the Communist party organ, to mark V-E day. The piece was considered an event because prominent officials seldom write for Soviet newspaper and such praise for the West is rare.

Zhukov paid particular tribute to President Eisenhower and Britain's Field Marshal Viscount Montgomery, saying, "It was under their leadership that the United States and British forces repeatedly routed the German Fascist troops."

Sun Will Explode, But Don't Worry

BERKELEY, Calif. (AP)—The sun is going to blow up and destroy our entire solar system—but don't fret about it.

Dr. Walter Rode of the Mt. Wilson and Palomar Observatories who made the prediction in a lecture at the University of California says it won't happen for a couple of billion years or so.

He explained that as Old Sol gets older it gradually changes its hydrogen into helium. When 12 per cent of the hydrogen thus is transformed, he added, things will get so hot the sun will explode and wipe out all planets in its system.

Big Top Lures American Kids But Few Performers

By HAL BOYLE

NEW YORK (AP)—American kids still flock to the circus by the millions, but a career under the big top lures fewer of them every year.

This saddens Pat Valdo, who has followed the tanbark trail for 51 years—and would do it all over again gladly.

"There are very few American circus families anymore—they are dying out," said Pat, who worked up from clown to general performance director of the Ringling Bros. and Barnum & Bailey Circus.

"Americans still excel in the high trapeze acts, but that's about all.

Not Enough Left
"Why it is I don't know. Our kids are good athletes, but not many want to go on and become professionals. Those who do want to become performers concentrate on other entertainment fields. They sing or talk or dance."

Pat, who knows most of the 600 animals and 1,000 people in the circus by name, nodded moodily to Big Ruth, an elderly elephant, as she ambled past. Big Ruth waved her trunk at him—just one old pro saluting another.

"There actually aren't enough good American acts left to put on

a whole circus program," said Valdo. "There are now about 19 nationalities among our performers."

UN Really Works
"But they're all good. They know their jobs, and they get along. We have a United Nations here that really works."

Pat was born Patrick Fitzgerald, and is the only Irishman I ever met who changed his name. In his case he can plead self-defense.

"It was a defense against hunger," he grinned. "I was in a partner act, and the fellow I was teamed with thought we'd both eat better and get more bookings if I abbreviated my name from Fitzgerald to Valdo."

Daughter of Walt Disney Is Married

SANTA BARBARA, Calif. (AP)—The daughter of film producer Walt Disney, 20-year-old Diane, is honeymooning today with Ron Miller, 21, former University of Southern California football end.

They were married Sunday in All Saints by-the-Sea Episcopal church at nearby Montecito.

Miss Disney was given in marriage by her father. Miller is employed by Disney. The bride was a junior at USC but does not plan to continue her college work.

Bronco Washed Upon Beach After Escape

CAROLINA BEACH, N. C. (AP)—The sea has returned an escaped rodeo bronco to the men who pursued it for four days.

The body of the big red roan was found here Saturday washed up on the beach in an end to the long chase.

The horse leaped into the sea Tuesday and swam until it disappeared beyond the horizon.

Its owner said he had intended to turn the animal out to pasture if it ever returned.

The Outer Banks area where it escaped is famous for its wild horses—but no one knows what the horse was seeking in the sea.

The bride was still on the animal's head.

J. Edgar Hoover Marks 30th Year as FBI Chief

Law Enforcement Now Honorable, He Claims

EDITOR'S NOTE: When he took over as acting director 30 years ago, J. Edgar Hoover found the FBI loaded with political hacks whose only qualification was friendship with a local committeeman. Here's the story of how he has raised it to the nation's top law enforcement agency and a behind-the-scenes look at the way the FBI works, day to day.

By DON WHITEHEAD
(Copyright 1934)
By The Associated Press
WASHINGTON (U-P)—J. Edgar Hoover's greatest pride on this, his 50th anniversary as FBI director, is this:
"I'm proudest of the fact that we've made law enforcement an honorable profession. In all my career that achievement has made me happiest."

"By observing civil rights, by eliminating the third degree and the evil practices that once existed, we have achieved a standing in the country of which I'm proud. And it's largely due to the character of our personnel."
Hoover said he is hopeful the FBI will be divorced for all time from partisan politics and that his own successor will come from FBI ranks.

From Within
Looking back over the stormy years of FBI development, Hoover said in one of his rare interviews:
"I'm heartily in favor of promoting from within the bureau."
"When I took over the directorship in 1924, FBI agents held their jobs because of political ties. They were political appointees, and the only requirement was 'Do you have the endorsement of your committeeman?'"

"I stopped that. All my assistants and associates have come through the ranks. My feeling is that my successor, when the time comes, should be designated from the ranks. Not on any basis of seniority, but on ability."
"We have developed some fine executives within the FBI. You can't buy the kind of energy and devotion they've given to the bureau."

One-Man Show?
The general impression has grown through the years that the FBI is a one-man show, largely because the name J. Edgar Hoover has become linked inextricably with the name FBI. Hoover does have the final decisions, but in the background is a 10-man brain trust through which Hoover works in directing his fight against crime, espionage and subversion.
Each morning at 10:30 Hoover's

10 top aides gather in what is known as "the executive conference." Associate Director Clyde Tolson is chairman in the absence of Hoover. With him are Assistants to the Director L. V. Boardman and Louis B. Nichols, and the assistant directors and division chiefs.

One member of the conference said: "There are no holds barred in our meetings. We thrash out policies and procedures within the framework of our responsibility. Each decision is arrived at by a vote. If there is a split vote—we must give the arguments on both sides to the director for his final decision."

Wants Best Opinions
"The director wants the best opinions even if they run counter to his own. He wants recommendations too on a course of action. Once a decision is made, then we close ranks and carry out the job."

Hoover recalled the first months of his career with the FBI. "There were some marvelous fights inside the bureau," he said. "Some of the old-timers complained we were getting 'Boy Scouts' to do the work that could be entrusted only to the two-gun men."

Those first years were ones of reorganization, building up a corps of agents trained in law and accounting, and establishing uniform rules of conduct and procedure. Then came the gangster era—the wild rampage of gang rule, gang murders, kidnaping, bank robberies and reigns of terror by underworld mobs working with crooked politicians, crooked courts, crooked police officers. Stirred Nation
The kidnaping of Charles A.

Lindbergh Jr., stirred the nation. And then "Pretty Boy" Floyd, Vern Miller and Adam Richetti slaughtered four police officers in trying to free a pal, Frank Nash, from their custody. This was the bloody "Kansas City Massacre" of June 17, 1933. Ironically, the hoodlums killed Nash too in the wild shooting.

In the breakdown of local-law enforcement, enraged citizens demanded action from the federal government. Congress in 1934 passed a series of crime bills which almost overnight changed the FBI from an unarmed force with no authority into a crime-fighting organization.

Carry Arms
FBI men were authorized to carry arms and make arrests. It became a federal crime to kill a government agent. Laws were passed giving the FBI authority to go into action against kidnapers, extortionists, bank robbers, racketeers and criminals fleeing across state lines to avoid prosecution.

Hoover built up a giant master file of fingerprints, established a national crime laboratory for scientific analysis of crime clues. He started the National Police Academy, where police from all over the nation come to study FBI crime detection methods and the scientific means of gathering evidence. The facilities of the FBI were opened to all local law enforcement agencies.

By 1939, he reported that not a single organized crime gang was operating.

U. S. Aid to Indochina To Continue

By ELTON C. FAY

WASHINGTON (U-P)—The fall of Dien Bien Phu will leave unchanged the American program of military assistance to the French Union and Associated States in Indochina, a Pentagon spokesman said today.

The sea and air shipment of equipment and supplies and the assistance of aircraft technicians to keep flying the planes turned over to the free forces in Indochina by the United States will continue, the spokesman said.

Not Minimized
There was no disposition to minimize the effect if the fall of the fortress should prove a forerunner to the loss of all Indochina. The latter, Adm. Arthur W. Radford, chairman of the Joint Chiefs of Staff, said recently, could be "a prelude to the loss of all Southeast Asia."

The gap in the free world's defense perimeter then would extend from the Chinese Nationalist refuge on Formosa far to the westward near Pakistan. Although some individual states in Southeast Asia might continue to lean toward the West, they would be surrounded by other states either nervously neutral or definitely under Red control.

U. S. Ready
Whether there is continued fighting in Indochina or a truce, as is now proposed by the French, the United States intends to maintain its air and sea strength in the general Far East area — ready to deal with any violation of the truce in Korea or to be used to implement international policy decisions elsewhere.

Although Army strength is being reduced by at least two divisions in Korea, the White House and Pentagon have stated that overall strength in planes and ships and

mobile ground forces will be kept up.

Deployed in the Far East — Korea, Japan, Okinawa and the Philippines — are about 20 wings of the Air Force. These currently include three medium bomb outfits, now equipped with piston-engined B29s but which, under a unit rotation plan announced over the weekend, eventually will be replaced by B47 jet bombers. Also in the Far East Air Force are eight fighter wings, two light bomb wings, a tactical reconnaissance wing and half a dozen troop carrier wings.

The Navy likewise has announced that the strength of the 7th Fleet is being kept at approximately the level of Korean War days.

Couple Who Broke Engagement 52 Years Ago, Wed

WASHINGTON (U-P)—Fifty-four years ago two 18-year-old sweethearts had a spat in Peoria, Ill., and broke off their engagement.

Sunday, reunited through correspondence, they were married in a ceremony at Brookland Methodist Church.

The couple are Clarence Onyun, 72, Washington, and Mrs. Jennie Richards, also 72, who flew here from Detroit for the ceremony.

The two grew up together in Peoria, plighted their troth but quarreled and went their separate ways.

Last Christmas Onyun, a semi-retired hotel clerk who has lived alone the past 10 years, wrote Mrs. Richards, discovered she also had been alone for several years, continued the correspondence and won her.

At the marriage ceremony, attended by about 25 persons, Onyun showed he's still as romantic as he was 54 years ago. He stole a look at his bride and whispered, "Jeepers, you've got pretty eyes."

World's First!

Phillips 66 presents the first All-Weather Motor Oil which has proved it meets the most exacting standard ever established for automobile lubrication...
Mil-O-2104, Supplement 1 level.

The toughest standard ever set up for automobile lubrication is the Mil-O-2104 Supplement 1 test. New Trop-Artic is the first all-weather motor oil to meet the requirements of this test. It is an oil which will serve you winter and summer... an oil so good it can double the life of an automobile engine!

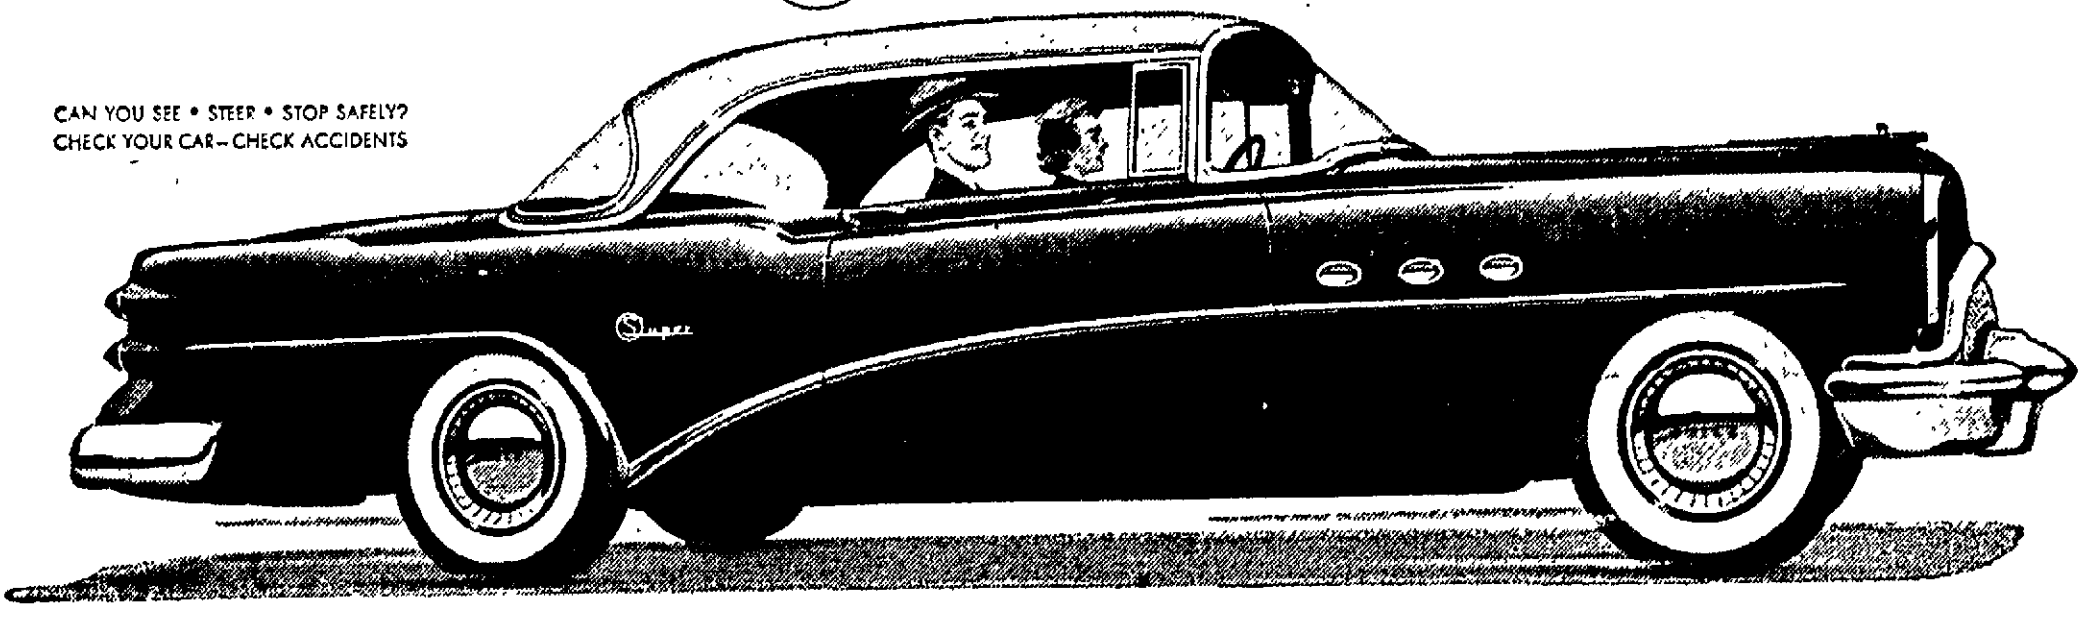

Compared to ordinary motor oils, new Trop-Artic reduces ring wear 40% or more. It cuts oil consumption 15% to 45%. It keeps pistons and bearings cleaner... longer-lasting. It saves you money by increasing gasoline mileage. This has been demonstrated in tests representing over 150,000 miles of driving.

Trop-Artic is truly an all-weather oil... S.A.E. 10W through S.A.E. 30. Therefore it flows instantly for easy starting at sub-zero temperatures, and yet it retains the film strength necessary to prevent engine wear under high temperature driving conditions. It isn't just heavy duty. It's double duty.

Any car, in any climate, at any time of the year will perform better with Phillips 66 Trop-Artic. It is a worthy companion product to Phillips 66 Flite-Fuel, the new high performance gasoline recently introduced by Phillips. It pays to stop at the station where you see the Phillips 66 Shield.

"Best Seller" for 3 good reasons

Buick now outsells all other cars in its price class and above

YOU'VE probably noticed it right in your own neighborhood.

Bright new Buicks appearing here, there, everywhere. And more and more of them in recent weeks.

Know what's happening?

Folks in growing numbers — (and maybe you'll be joining them soon!) — are finding Buick styling, performance and value far too wonderful to pass up.

So Buick is selling at a record pace — outselling all other cars in its price class and above.

Matter of fact, latest figures for the first quarter of 1954 show that, in total national volume, Buick is outselling every other car in America except two of the so-called "low-price threes."

A look and a ride and a peek at the price tag will be all you'll need to know what's back of this best-selling success.

There's styling in Buick that's the greatest beauty advance in years — the very look of tomorrow — and with the spectacular panoramic windshield that's part and parcel of this dream-car look.

There's performance in Buick as never before — with record-high V8 power, with the

sensationally smooth whip of Twin-Turbine Dynaflo,* with the buoyant ride of all-coil-springing, with a new precision of control and handling.

And there's value in Buick that's hard to match — with prices starting near the "low-price three" — prices that buy more Buick beauty and power and thrill and sheer automobile than smart money ever bought before.

How about you?

Are you ready, willing and waiting to be shown that this best seller called Buick is the buy of the year for you, too? Drop in this week, or give us a call, and we'll arrange a demonstration.

The Lincoln Lane Veterans League is having its banquet tonight at 6:30 at the VFW Club in Dementown. All the league bowlers are urged to attend.

The mixed doubles tournament will take over at the Recreation this week with the playoffs open both afternoon and evening. You may bowl as often as you wish either with the same or different partners, but can collect prize money only once with the same partner. Either two men, two women or man and woman may roll with the girls getting a four-pin 4900 each game, over the regular handicap. Ken plans to close the playoffs May 16.

City Women's Association Secretary
Rece McConaughay has turned in the first records of the girls city tournament. The complete list of prize winners will be published later in the week. A few of the high lights of the tournament were:

The R & S Shoes, runners-up in the team event, and the score sheets we failed to have when we mentioned the top team totals, scored individually: eBos McConaughay 490, Imogene Gaidler 449, Mimi Bieschke 449, Mickey Fleming 451 and Martha Halstenberg 535 with a 270 spot for their second place 2673.

Jane Fischer and Phyllis Carson were high in the doubles. The top three:
Jane Fischer 574
Phyllis Carson 559 0-1133
Leora Hahn 513 100-1125
Evel Hilde 451
Faith Hinkle 451
Gwen Saari 489 171-1111

Wanita Andreas had games of 197, 209 and 207 with no handicap for a natural 617 to lead the girls in the singles. The top three in this event were:
Wanita Andreas 613
Eva Karper 536 54 550
Jane Fischer 575 0 575

Wanita Andreas was also high in the all-events. The top three were:

Wanita Andreas 1884 0 1884
Jane Fischer 1870 0 1870
Martha Halstenberg 1368 63 1649

Douglas Wants Change in Senate Hearing Methods

NEW YORK (AP)—Sen. Douglas (D-Ill.) says a "reform in the procedures of congressional investigating committees" should result from the Army-McCarthy hearings.

Interviewed on a television program Sunday, Douglas said evidence against an individual "should be sifted in executive session first" and that the person involved "be notified in advance what the charges are to be, so he can prepare his defense."

The senator also said he favored giving naval and aviation support to the Viet-Nam government in Indochina, but not the sending of U. S. ground troops.

Should Indochina be lost to the world, he said, "in all probability" it would mean a Communist conquest of Southeast Asia.

Douglas attacked what he termed the "contradictory and confused policies" of the Eisenhower administration in the Indochina situation. He said the Democrats "want to help the President when he's right." But he termed the present administration's foreign policy a "watered down version of the Truman policy."

Secret Service Reveals Death Threat to President

WASHINGTON (AP)—President Eisenhower didn't know it, but Secret Service agents spent a busy weekend investigating a reported threat to assassinate him.

Secret Service chief U. E. Baughman says of the report now that he is "satisfied there was nothing to it." But he reached that conclusion only after his men had worked long hours checking every angle, he said.

The report Baughman got was that there would be an attempt on Eisenhower's life Sunday afternoon at Fredericksburg, Va., where the chief executive drove to place a wreath at the grave of Mary Ball Washington, mother of the nation's first President, Fredericksburg is about 45 miles south of Washington.

Without Incident

The Mother's Day ceremony, witnessed by several thousand people standing in the rain, went off without incident.

And it wasn't until after the President and Mrs. Eisenhower had started back to Washington that Fredericksburg Police Chief A. G. Kendall told of the "threat" to kill the President and of the precautions taken to prevent it.

Kendall told newsmen a Negro man he termed "reliable" visited Fredericksburg police headquarters Saturday and said he had been approached with plans to "knock the President off." Kendall declined to name the man, saying that to do so might place him in danger.

He quoted the man as saying he had been approached by two other men who asked him if he wanted to make \$500. The police chief quoted his informant as saying the pair showed him a rifle with telescopic sights and told him they planned to shoot the President from a rooftop.

Arrange Meeting

Kendall said the man arranged to meet the pair again Saturday night, then came to police with the story, and was told to keep the rendezvous. But he lost his nerve, Kendall continued, and po-

lice located him and kept him in protective custody overnight.

Kendall said he communicated with the Secret Service as soon as the man came to police.

He said the informant was "questioned, questioned and questioned, but we couldn't break his story down."

"Even now," he said, "we don't know if his story was true or not true."

In response to a question, Baughman said neither the President nor Mrs. Eisenhower knew anything about the reported threat.

He said the Secret Service gets "quite a few" such reports and that all of them are checked just as carefully.

He said he had "only a couple of extra men" from the secret ranks on duty at the Fredericksburg ceremony, but that the city had a force of about 60 police officers on hand at the monument grounds and in the vicinity.

See New Strength For Union Pact

WASHINGTON (AP)—The CIO-AFL "no raiding" agreement that has been kicked around for many months appeared likely to get a new shot in the arm at a special CIO executive board session today.

Advance word from CIO informants was that, barring an upset, the board members would decide to ask the AFL to go ahead at once with the labor peace plan negotiated last fall by the rival labor groups.

The agreement would bind a union in one federation against seeking to take over members already organized by a union in the other federation. The pact is regarded as a necessary first step toward any AFL-CIO merger.

ICC Chairman Escapes Injury

WASHINGTON (AP)—Col. John M. Johnson, 72, chairman of the Interstate Commerce Commission, escaped with minor injuries when an auto in which he was riding overturned Sunday at nearby Bethesda, Md.

Johnson and Horace G. Smithy, 71, Washington real estate man, who also was hurt, were returning from a golfing outing at Burning Tree Country club.

Just the Dog!

DALLAS (AP)—A woman reported to police that her husband had disappeared with her Chihuahua puppy.

"I don't care if my husband ever comes back," she explained. "I just want to find my dog."

Boat Drifts Over Dam, 2 Fathers Drown

ALCONQUIN, Ill. (AP)—Two young fathers were drowned in the rain-swollen Fox River Sunday night when their motor boat was swept over the Alconquin Dam.

The bodies of Robert L. Bracken, 28, and Craighton M. Estes, 24, both of Crystal Lake, Ill., were recovered in the swirling waters below the dam.

McHenry County Coroner Harry Ehorn theorized the motor on the boat had stalled and the two men, engrossed in their efforts to restart it, were unaware the boat was being drawn toward the 10-foot dam.

They had rented the boat Sunday afternoon for a fishing excursion on the river.

Bracken, a cab company operator in Crystal Lake, leaves his widow, Irma, and two sons 7 and 3 years old. Estes, Bracken's brother-in-law, leaves his widow, Geraldine, and a 5-month-old daughter.

Fighting Follows DeGaulle Visit to Arch of Triumph

PARIS (AP)—Gen. Charles de Gaulle's pilgrimage "alone" to the tomb of France's Unknown Soldier touched off a fight Sunday between police and Gaullist supporters. A number of civilians and 11 police were injured.

De Gaulle boycotted the official observance of V-E day Saturday to dramatize his opposition to the European army treaty. Instead, he said, he would go alone Sunday to the tomb at the Arch of Triumph.

Some 15,000 spectators gathered in the plaza around the arch. Almost as many police were ordered out to forestall demonstrations authorities feared might grow out of public feeling aroused by the fall of Dien Bien Phu, in Indochina.

De Gaulle's visit to the tomb went off without incident.

But after he left the plaza, some 400 persons tried to break through the police barrier and the fight ensued.

Sen. Humphrey Predicts Lower Voting Age Law

WASHINGTON (AP)—Sen. Humphrey (D-Minn.) says he is "optimistic" that the Senate will approve a proposed constitutional amendment to lower the voting age from 21 to 18 when the measure comes up this week.

The legislation has long had an okay from the Senate Judiciary Committee, but there has been no action in the House. Humphrey said Sunday Sen. Knowland of California, the GOP Senate leader, agreed to bring the measure to the floor this week.
